

PD200

Dispatch Console

- Private Call
- Call Recording
- Group Call
- GPS Positional Tracking Playback
- All Call
- Repeater Status View
- Message
- NAT
- Location
- Dispatch by Permission
- Report Statistics
- Numbering Management
- Record Storage
- Geofence

Highlights

- Easy to Install**
 The Dispatch Console adopts CS (Client and Server) architecture, which makes installation and deployment easy.
- Easy to Extend**
 Support the standard AIS interface, convenient for the customization and development.
- Best Performance**
 Supports high-capacity dispatch utilization, maintaining multiple paths of concurrent calls and recordings.
- Rich Functions**
 Supports all basic functions, such as private call, group call, location, text message, record, etc. Plus additional advanced functions, such as geofence, report statistics, dispatching permissions, etc.

Specifications

Configuration Requirements for Hardware

Desktop	CPU	2GHz
	Memory	4GB
	Hard Disk	100GB
	Operation System	64 bit Windows operation system

Performance

Max. User Number	800
Max. Group Number	128
Max. Concurrent Call Number	32
Max. Concurrent Record Number	32
Call Time Delay	≤300ms
Max. Dispatch Console Client Number	8
Max. Repeater Number	64
